OMORUYI GLORY TOLUWANI

Address: Lagos, Nigeria • **Phone No**. +2349079070943 • **Email**: gloryomoruyi00@gmail.com
Portfolio: https://github.com/nimietech

CAREER SUMMARY

Results-driven Frontend Developer and Coding Tutor with over 2 years of experience in designing, developing, and maintaining responsive web applications and e-commerce platforms. Skilled in building intuitive user interfaces, integrating RESTful APIs, and optimizing website performance to enhance user experience. Adept at collaborating with cross-functional teams, mentoring students, and delivering coding workshops to foster programming skills. Proficient in React.js, Next.js, JavaScript, Tailwind CSS, Node.js, MongoDB, and Git, ensuring efficient development processes and clean, maintainable code. Passionate about leveraging technology to solve real-world problems and drive business growth.

EDUCATION/CERTIFICATION

Bachelor of Science; Business Administration   **2020.**
Pan Atlantic University, Lagos State | https://pau.edu.ng/

CORE COMPETENCIES

Frontend Development | Full Stack Development | Responsive Web Design | React.js and Next.js Development | HTML, CSS, and Tailwind CSS | JavaScript (ES6+) and TypeScript | RESTful API Integration | Backend Development with Node.js and Express.js | Database Management with MongoDB | Version Control and Collaboration (Git & GitHub) | Debugging and Performance Optimization | Cross-Browser Compatibility | User Interface (UI) and User Experience (UX) Design | Code Review and Quality Assurance | Agile Development and Team Collaboration | Coding Curriculum Development and Mentorship | Problem-Solving and Critical Thinking | Technical Documentation and Reporting

OUTSTANDING ACCOMPLISHMENTS

- Successfully led the development of Divine Scholars' first-ever digital presence, transforming a manual system into an interactive website and increasing online inquiries by 30%.
- Designed and implemented a custom coding curriculum for secondary school students, enabling over 30 students to build and present functional personal web projects.
- Led the digital transformation of Edelz Empire's sales process, transitioning from manual tracking to a fully functional e-commerce platform.
- Coached non-technical staff on basic content management, reducing reliance on developers for routine updates and improving content delivery efficiency.
- Received special recognition from school leadership for driving innovative tech education initiatives, positioning Divine Scholars as a progressive school embracing digital learning in its curriculum.
- Established a peer code review process within the Divine Scholars coding club, significantly enhancing code quality and collaborative problem-solving.

PROFESSIONAL EXPERIENCE

Web Developer & Coding Tutor   **April 2023 – Date.**
Divine Scholars School, Lagos, Nigeria.

- Developed and launched the school's official website, driving a 45% increase in online traffic and improving user engagement.
- Created structured coding curricula for HTML, CSS, and JavaScript, boosting student understanding and project completion rates by 60%.
- Conducted weekly coding workshops with hands-on projects, improving students' practical coding skills and logical problem-solving abilities by 40%.
- Collaborated with teachers and academic leadership to integrate coding into the core curriculum, improving student participation in tech-related subjects.
- Designed an interactive learning management system prototype using Next.js, providing students with real-time feedback and project grading tools.
- Led mobile-first development practices, ensuring all web features were fully responsive, improving mobile usability scores by 50%.
- Provided personalized coding mentorship to over 30 students, helping them complete individual web projects, enhancing creativity and technical confidence.

Software Developer & Manager   **March 2023 – Date.**

Edelz Empire, Lagos, Nigeria.

- Developed and maintained the company's e-commerce platform, increasing online sales revenue by 35% within the first 6 months.
- Integrated secure payment gateways and optimized checkout process, reducing cart abandonment rate by 25% across desktop and mobile users.
- Implemented search engine optimization (SEO) strategies that boosted organic search traffic to the website by over 40%.
- Introduced automated inventory management features, reducing manual stock errors by 50% and improving customer order accuracy.
- Collaborated with the marketing team to design dynamic product showcases, increasing customer dwell time on product pages by 32%.
- Developed internal dashboards using React and MongoDB, enabling the management team to track sales performance in real time.

OTHER EXPERIENCES

Administrative Officer   **February 2022 – February 2023.**

Nigerian Meteorological Agency, Nigeria.

Administrative Officer   **August 2021 – February 2022.**

Divine Scholars School, Nigeria.

CERTIFICATION

Full Stack Development (MERN Stack), Ehizua Hub Institution, Lagos States.

Frontend Web Development, ALX Africa.

PROFESSIONAL SKILLS

- Highly skilled in developing dynamic and responsive web applications using modern front-end technologies, ensuring seamless user experiences across various devices and screen sizes.
- Proficient in integrating RESTful APIs to establish efficient communication between front-end interfaces and back-end services, enhancing functionality and data flow.
- Adept at utilizing version control systems such as Git and GitHub to manage code repositories, collaborate with teams, and maintain a structured development workflow.
- Experienced in identifying and resolving bugs, optimizing application performance, and enhancing user experience using tools like Chrome DevTools and Lighthouse.
- Knowledgeable in MongoDB database management, including designing efficient schemas and implementing best practices for data storage and retrieval.
- Strong ability to collaborate with designers and stakeholders to translate high-fidelity designs from Figma or Adobe XD into pixel-perfect, interactive web applications.
- Experienced in deploying, managing, and maintaining web applications using cloud-based platforms such as Vercel and Netlify, ensuring smooth operations post-launch.
- Proficient in working within Agile development teams, actively participating in sprint planning, stand-ups, and iterative development cycles to deliver high-quality software solutions efficiently.
